ABSTRACTED-PUB-NO: JP2000108685A

BASIC-ABSTRACT:

NOVELTY - A flexible fabric, which has a shading effect, covers the glass sides and ceiling of vehicle front section. A rubber string (83) is attached to the side and ceiling portion of a fabric. The bottom sides of a rubber string are pulled, such that glass sides and ceiling of vehicle body are covered. The rubber strings have round hooks.

DETAILED DESCRIPTION - An INDEPENDENT CLAIM is also included for the half vehicle body cover mounting method.

USE - For covering motor vehicle body front section.

ADVANTAGE - Enables use of vehicle body cover for covering vehicle body by providing rubber string that is pulled to e.g. flywheel. Ensures easy detachment of vehicle body cover by providing detachable buckle. Prevent theft by fixing fabric on vehicle body through pinching of nipping tool between door and doorframe during door close state. Offers vehicle body cover with satisfactory sunshade function by providing flexible fabric with shading effect.

DESCRIPTION OF DRAWING(S) - The figure shows the isometric view of the half vehicle body cover.

Rubber string 83
